SUMMARY

Highly motivated and professional Engineer born in Texas. Proficient in Programming, data science, building websites/apps backend and front end, and managing sites. Possess exceptional communication and interpersonal skills with a proven ability to work independently and as part of a team. Major interests include Mathematics (Calculus, Data Science), Computer Science, AI Agents, GenAI, and Software Engineering

EDUCATION

Bucknell University College of Engineering

Bachelor of Science

May 2029

Major(s): Computer Science and Engineering

EXPERIENCE

JobQuest AI

September/2025 - Present

Founder & Product Developer

- Developing JobQuest AI, an AI-powered career platform designed to evaluate resumes, identify candidate strengths, uncover skill gaps, and assess alignment with target roles.
- Developing a mock interview system that simulates HR, behavioral, technical, and hiring-manager interviews, enabling users to practice in realistic scenarios.

Web Developer

June/2026 - Present

Full stack Web Developer

- Developed and managing the SEO for the official website for Lewisburg Brazilian Jiu Jitsu Gym.
- Implemented the website using React, Vite and Node.js along with experience in using AI tools.

Bucknell University

May/2026 - July/2026

Research Intern

- Selected to conduct data science research under Professor Douglas Collins at Bucknell University, focusing on environmental sensing and analytical modeling.
- Work with Low-Cost Sensors (LCS) and advanced data analysis techniques to study air-quality patterns and pollutant-source attribution in the Shamokin Region, Pennsylvania.
- Applying methods including field calibration, graph-based modeling, and linear interpolation to investigate pollution sources such as lofted coal dust and mine fires.

Rooke Chapel

August/2025 - Present

Event, Communications, and Design Lead

- Our team is dedicated to fostering an interfaith community among the people.
- We host dinners, events, and debates across the campus to address sensitive issues and welcome people from diverse backgrounds and faiths to learn from one another and foster understanding.
- Developing and promoting the community by creating, managing, and promoting events online
- Design Posters, Pamphlets, Bulletins for Sunday Mass and Special occasions.

National Institute of Science Education and Research (NISER)*April/2023 - June/2023***Research Intern**

- Completed a Mathematics internship under Dr. Brundaban Sahu. Studied how symmetry works in different dimensions
- Conducted interdisciplinary research connecting mathematical principles with natural and structural design, expanding the practical relevance of abstract concepts.

NISER*August/2020 - August/2020***Front-End Web Developer**

- Developed website for U.lourderaj Research group at NISER.
- Utilised HTML, CSS, and JavaScript to make the website animations and responsive in both Touch screens and Monitors

SKILLS (AND INTERESTS)

- Started Programming in 2019, Learnt Python, Java, JS, HTML, CSS, FLUTTER, DART, React.js from scratch, completely online.
- Participated in Chemistry Lectures conducted at NISER, with a specific interest in the application of ML in predicting the movement of molecules
- Skilled in Arduino Robotics, built a Bluetooth-controlled car and presented it in a science exhibition in Loyola School 10th grade, securing 1st place.
- Student President and Council president in Apeejay School (11th-12th grade) and Loyola school (10th grade). Learnt event management and public speaking
